

JPIAMR webinar on fungal drug resistance - Agenda

Wednesday 28th April 2021, Chair: Prof. Judith Berman, Tel Aviv University, Israel		
14:00 C.E.T	Welcome remarks	
14:10	Introduction to JPIAMR and antifungals:	
14:10-14:20	JPIAMR – Supporting Transnational Research	Laura Plant, PhD, JPIAMR Secretariat
14:20-14:30	About antifungal resistance	Tom Harrison, MD, St George’s University of London, United Kingdom and JPIAMR Scientific Advisory Board
Short lectures: The most common pathogenic fungi; identifying and dealing with the AMR challenges they face		
14:30-14:45	Cryptococcus spp.: Fluconazole monotherapy as a pathway towards resistance	Tihana Bicanic, MD, St George’s University of London, United Kingdom
14:45-15:00	Aspergillus spp: Common soil-dwelling mould & continuous threat to human lung health	Elaine Bignell, PhD, University of Exeter, United Kingdom
15:00-15:15	Candida spp.: Under the radar of antifungal resistance	Dominique Sanglard, PhD, University of Lausanne and University Hospital, Switzerland
Expert panel – Addressing fungal AMR within a One Health context		
15:15-15:20	Environment	Matthew Fisher, PhD, Imperial College London, United Kingdom
15:20-15:25	Agriculture/Plant food security, fungi and fungicides	Sarah Gurr, PhD, University of Exeter, United Kingdom
15:25-15:30	Medicine/Human	Don Sheppard, MD, McGill University Health Centre, Canada
15:30-15:40	Panel discussion + Q&A	
	Concluding remarks	
15:45	End of webinar
